

Lactation: Reproductive Social Justice

Faculty: Suzanne Campbell, PhD, RN, IBCLC; Nicole Bernardes, PhD, PT; Flaviana Viera, PhD, RN;

Students: Janet Currie, MSW, PhD(c); Damaris Grunert, MSN, RN, T. Tharmaratnam, BSc, MSN (in progress), RN

Main Topics

Assist breastfeeding parents

Lactation Simulation Model (LSM) (LGC®)

Technology use by breastfeeding parents

Domperidone - Low milk supply
Human milk bank donations

Management of nipple trauma &
nipple pain

Interprofessional Health Student
Education in Lactation

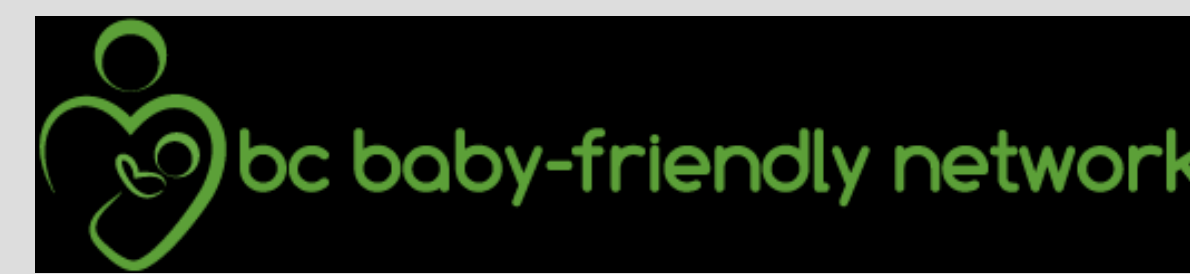

Immigrant women – Respectful Care

University degrees involved

- Undergraduate and graduate students
- Masters students
- PhD students
- Postdoctoral researchers
- Visiting faculties

Multidisciplinary Team: UBC-V & UBC-O

- Nursing
- Physiotherapy
- Midwifery
- Medicine

OERs-IP Lactation

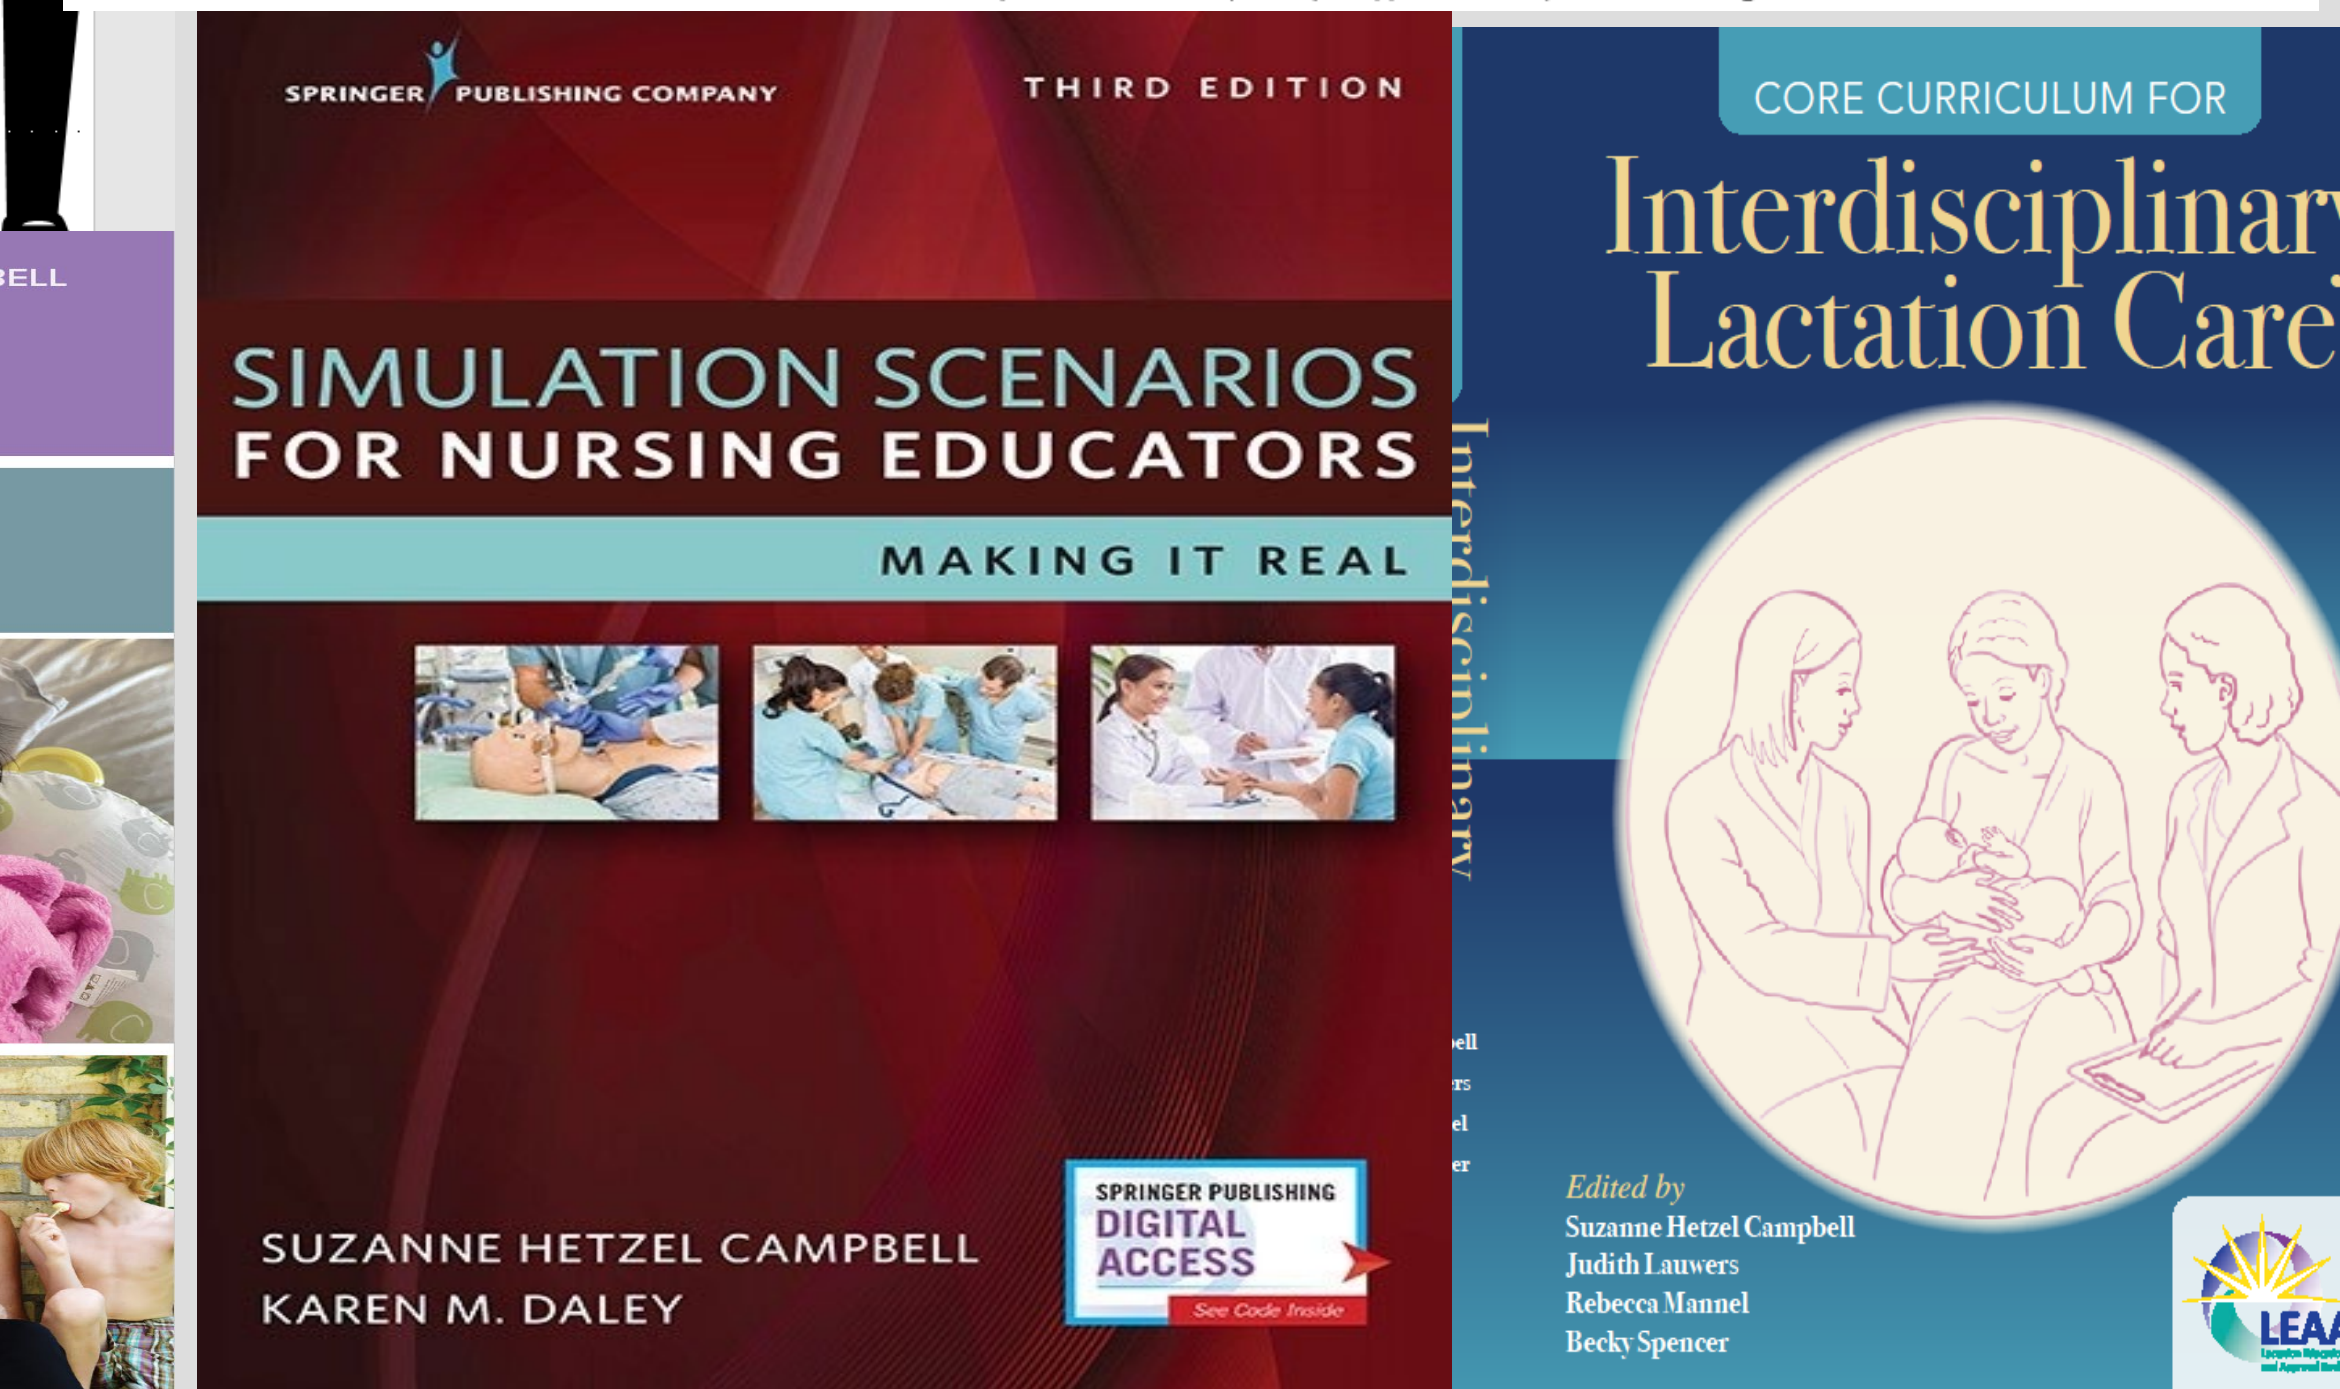

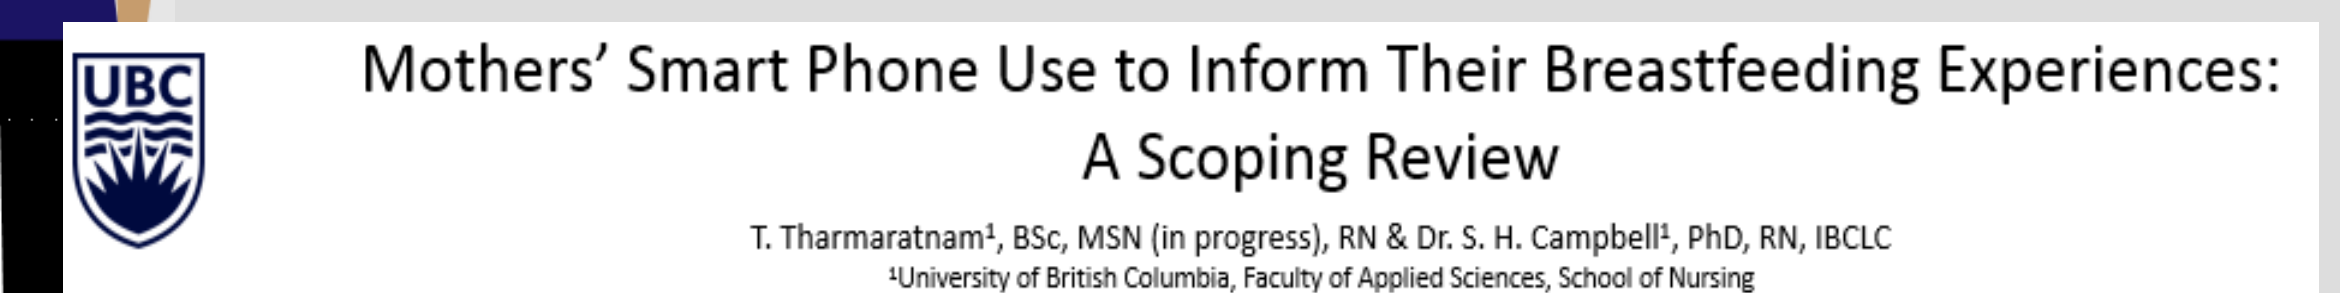

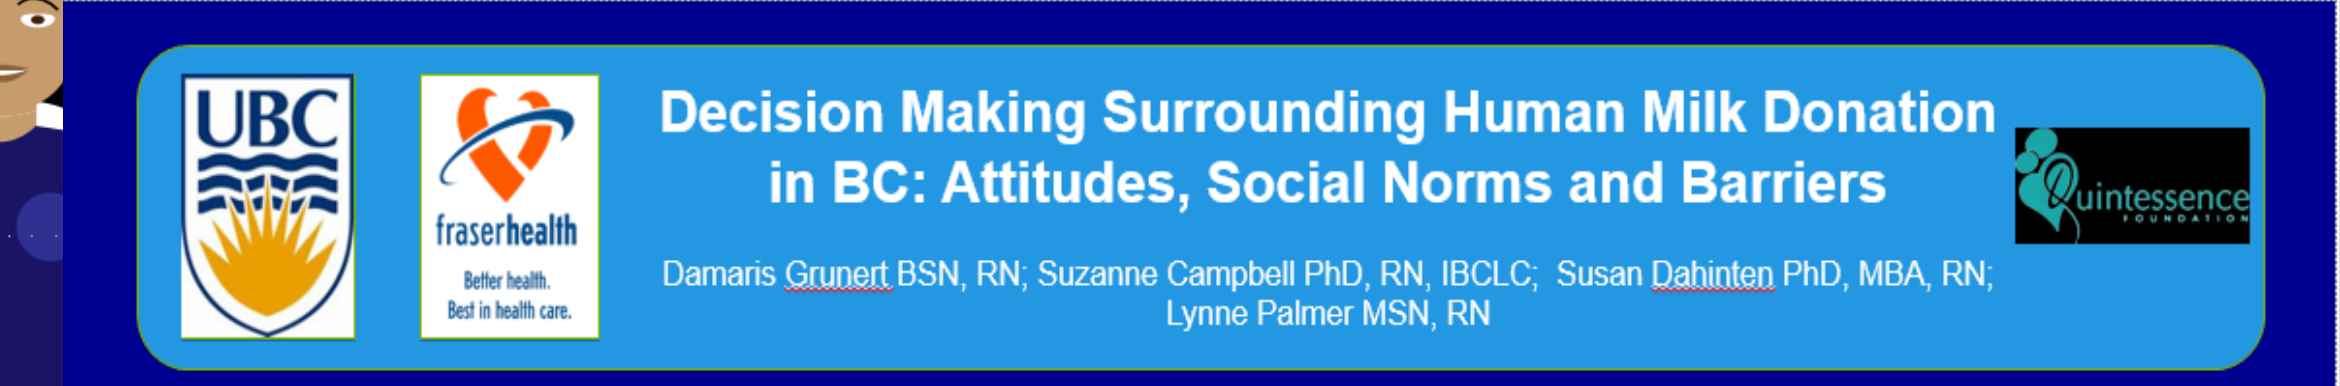

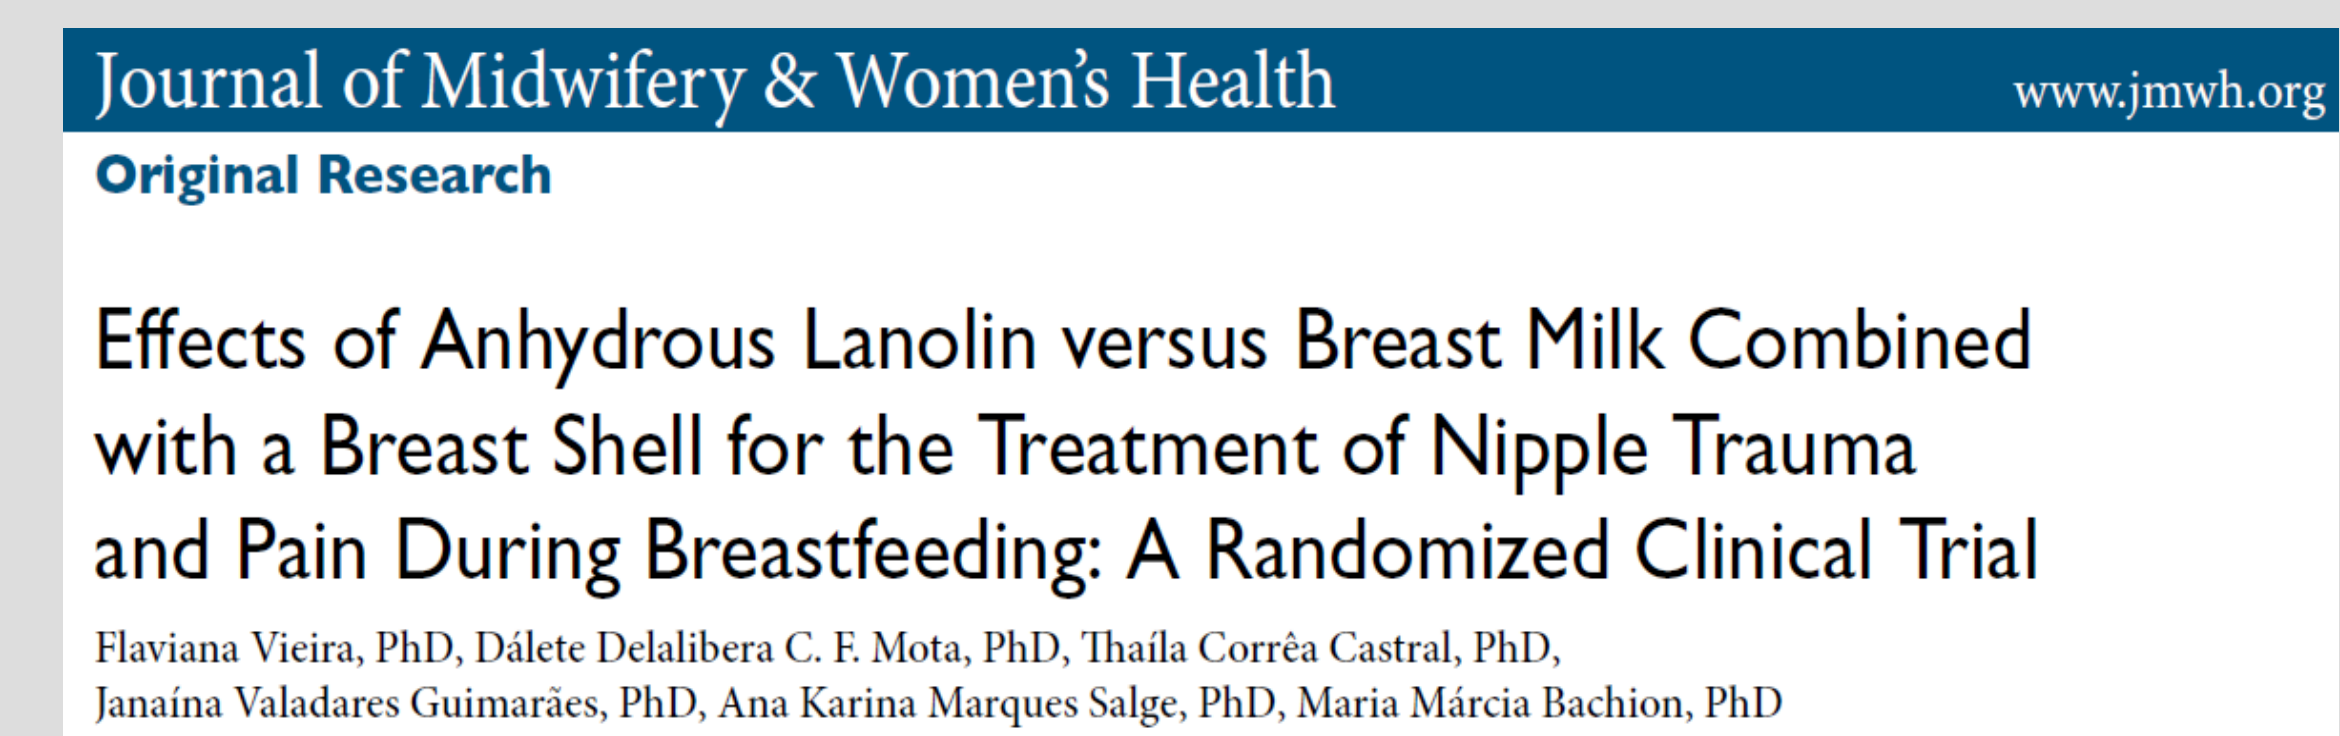

Intro: Physiology of Lactation

1. Prenatal Anticipatory Guidance
2. Cesarean Section in Hospital
3. Effective Breastfeeding
4. Midwifery Clinic, Low Milk Supply
